

Roll exchange and roll services for three-roll mills.

Grinding & Dispersing Customer Service

Profit from our roll exchange program and roll services to minimize downtime. We have our own exchange stock which allows for quick replacement of your rolls. Furthermore, our reconditioning service ensures you with a consistently high product quality.

Exchange service (reconditioned roll set)

Exchange of your rolls with reconditioned rolls from our exchange stock

- Availability of required rolls: Approx. 2 weeks
- Machine downtime: Approx. 2 days

Exchange service (new roll set)

Exchange of your rolls with new rolls

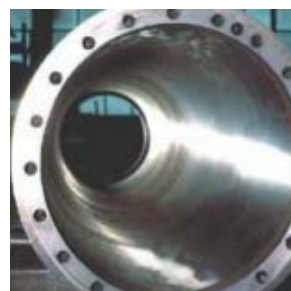

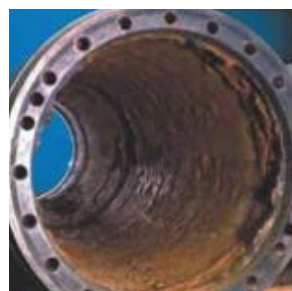

- Availability of required rolls: Approx. 8 weeks
- Machine downtime: Approx. 2 days

Reconditioning service

Reworking of your rolls in our workshop according to your requirements. After receiving your roll set, we check its condition and contact you to agree on the necessary reconditioning work.

- Machine downtime: 6 - 8 weeks

We also offer remote consulting for three-roll mills. In a call with our experts, you can learn how to reset your mill and fine tune all parameters perfectly to your products. Contact us for more details.

Advantages

- Minimal downtime due to fast exchange
- Optimal product quality with correctly reconditioned rolls
- No loss of productivity
