Bali leads the way and officially bans single-use plastic bags, straws and polystyrene across the island

As of June 23, 2019, Bali became the first Indonesian province to officially ban all single-use plastic bags, straws and polystyrene in a move environmental activists hope will have a domino effect across the country.

On June 23rd 2019, history was finally made with the announcement that the ban on single-use plastic is officially in effect. Hooray!
